

College Transition CHECKLIST

Packing

Gathering everything you need for your dorm is one of the most exciting and stressful aspects of preparing to leave for college. Our overarching advice: pack lightly! You can always buy additional or forgotten items after you settle in.

- Set your budget
- Check computer requirements
- Make your packing list, keeping it as light as possible
- Coordinate the purchase of large items with your roommate(s)
- Research what stores are close to campus (or will deliver to campus) so you can easily purchase last-minute items
